A Chromatic Experience!

My students need chromatic add-ons for our xylophones so we can challenge ourselves and play interesting, more difficult arrangements.

My Students

I teach K-5 general music at a diverse Title 1 school. My students are energetic, expressive and creative. We strive every day to create, sing, dance and play. They love collaborating, making projects and building things. These students are inquisitive and love to discover and share new things.

At this school, we celebrate all students.

They set their own goals and work hard to accomplish them, getting celebrated and encouraged along the way. These students can achieve

Henderson, NV

anything they set their minds to, and they definitely dream big.

My Project

With the chromatic add-ons for our xylophones, we can arrange, play and create using all of the pitches in a chromatic scale. This will let us play in different musical keys as well as play music that has interesting chord changes.

| *My students are ready for a new challenge.*

They love to discover and play things by ear. These added notes will give them the opportunity to transfer their favorite tunes to a new instrument without many of the limitations of a diatonic xylophone.

These will be used in the classroom as well as with my special performance groups. My students will love the extended breadth of our repertoire as well as the new skills they will need to perform it successfully.

More than half of students from low-income households ?

Donations to this project are now being matched, thanks to support from An Anonymous Arts Funder. Every child should have access to essential art materials and experiences. An education in the arts makes children well-rounded, engaged, and active citizens of the world. This project has been supported in an effort to ensure that all students gain from the many benefits that arts education provides.
